

WHY A SYMPOSIUM?

For most of the past century the mainline churches in North America and Western Europe have been seriously challenged by the influx of multicultural immigrants and the secularization process in their respective societies.

The Orthodox Churches in Canada in general, and the Ukrainian Orthodox Church of Canada (UOCC) in particular, are confronted by pluralism and secularization challenges. In order to deal effectively with these challenges we need to understand how these world views differ from a patristic Orthodox Christian world view. Much too often, many of our members are permeated with a non-Orthodox Christian world view without even realizing it. In the absence of a solid grounding in the teachings of the Orthodox Faith on a level capable of challenging secular and other worldview assumptions and in the absence of an experienced 'life in Christ' a large percentage of our faithful lead nominal -superficial Christian lives.

The purpose of this Symposium is to deepen our understanding of the differences between these world views. To do this, as a first step, we need to explore in some depth the Orthodox Christian view on the relationship between Faith and Culture and then go on to systematically explore the points of conflict.
